RE: Midterm Permit Review, Genwal Resources, Inc., Crandall Canyon Mine, C/015/0032, Task ID #3614

SUMMARY:

In accordance with R645-303-211, the Division is required to review each active permit during its term. The Division commenced the Midterm Review for the Crandall Canyon Mine on September 15, 2010. Typically, as part of the review, an AVS check is performed to insure that the ownership and control information is current and correct. However, on October 14, 2010, the Permittee submitted an application to revise the ownership and control information for Genwal Resources, Inc. and the Crandall Canyon Mine (Task ID #3659). Therefore, for efficiency purposes, ownership and control information will only be reviewed under Task ID #3659 and not as part of this Midterm Review.

An AVS Evaluation was performed on October 13, 2010. No violations were retrieved by the system.

RECOMMENDATION:

The Midterm Review is recommended for approval.
